- AA standard assignment template on experimental design (1) position one writing)
- | Question | Answer |
|--|--|
| 1. What is the purpose of the experiment? | The purpose of the experiment is to investigate the effect of the independent variable on the dependent variable. |
| 2. What are the independent and dependent variables? | The independent variable is the variable that is manipulated by the researcher. The dependent variable is the variable that is measured by the researcher. |
| 3. What are the control and experimental groups? | The control group is the group that does not receive the treatment. The experimental group is the group that receives the treatment. |
| 4. What are the results of the experiment? | The results of the experiment show that the independent variable has a significant effect on the dependent variable. |
